1. High definition (HD) content is required to view high-definition images. Resolutions are dependent upon monitor capability, and resolution and color depth settings.
2. Requires an Internet connection to HP web-enabled printer and HP ePrint account registration (for a list of eligible printers, supported documents and image types and other HP ePrint details, see [www.hp.com/go/eprintcenter](http://www.hp.com/go/eprintcenter)). Mobile devices require Internet connection and email capability. May require wireless access point. Separately purchased data plans or usage fees may apply. Print times and connection speeds may vary.
3. 25GB of free storage available. For complete details and terms of use, including cancellation policies, visit the website at [box.com](http://box.com). Internet service required and not included.
4. Miracast compliant devices are tested to operate with Miracast routers. Utilization requires proximity to a Miracast router, which is not included with the purchase of this tablet.
5. Internet access is required and sold separately.
6. Up to 32GB of expandable storage. MicroSD card sold separately. For Solid State Drives (SSD), GB = 1 billion bytes. Actual formatted capacity is less.
7. Weight and system dimensions may fluctuate due to configuration and manufacturing variances.
8. Service levels and response times for HP Care Packs may vary depending on your geographic location. Service starts on date of hardware purchase. Restrictions and limitations apply. For details, visit [www.hp.com/go/cpc](http://www.hp.com/go/cpc).
9. Wireless access point and Internet service required and not included. Availability of public wireless access points limited.
10. Availability of features varies by country. Supported on Android™ and iOS operating systems. Snapfish by HP mobile app download and Snapfish membership required. Internet service required and not included.
11. Additional accessories, including headphones, are sold separately.
12. Testing conducted by HP consisting of full battery discharge while running a 720p HD video playback with the speaker at default volume as the audio output device. Prior to testing, the system was fully charged and set to display brightness of 150 nits, Bluetooth off and WLAN off. Battery life will vary depending on the product model, configuration, loaded applications, features, use, wireless functionality and power management settings. The maximum capacity of the battery will naturally decrease with time and usage.
13. HDMI cables sold separately.
14. Quad-core is a new technology designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology.
