

Microsoft® Exchange Server Integration

Synchronize with Tigerpaw's Microsoft Exchange Integrator.

Looking for an easy way to see all of your tasks and contacts regardless of where you entered them? With Tigerpaw's Exchange Integrator, Microsoft Outlook® and Tigerpaw data will automatically synchronize.

Exchange Integrator keeps your contacts, appointments, and tasks synced between your Exchange Server and Tigerpaw. If you're using a mobile device that syncs with Exchange Server (such as a Blackberry), you'll also get seamless synchronization of your tasks and contacts between your mobile device and Tigerpaw. Users can even control the interval or how far in the future synchronization of your tasks takes place.

The Exchange Integrator Works with Microsoft Exchange Server 2003, 2007, 2010 and Microsoft Hosted to make managing your day and your life easier.

- Unified Calendar- no more missed appointments or scheduling conflicts.
- Now you can easily take an Outlook contact and add it to a rep's personal account in Tigerpaw and create a new account.
- Easy to deploy and configure

ACCELERATOR SERIES

The Exchange Integrator is part of the Orange Accelerator Series, a set of tools to assist in creating excellence for your business.

Synchronize Your World

Mobile devices that synchronize with Exchange Server will automatically sync with Tigerpaw.

Customize Your Settings

When tasks are deleted in Outlook, you can have the task in Tigerpaw deleted, marked completed, or left alone automatically.

Ease of Use

Allows employees to use the scheduling tool they are most comfortable with.
