

LabTech Mobile

With LabTech Mobile you now have access to the power of LabTech from anywhere, at any time, from a device in the palm of your hand. The LabTech Mobile app allows you to respond to your customers' support requests and resolve issues seamlessly—whether in or out of the office—24/7.

Increase your productivity and efficiency with the tool that lets you work on tickets, deal with timers, access client data, work with scripts and so much more. LabTech Mobile is an easy and fast way to manage your customers' accounts while on the go and give your technicians the ability to provide continued services from the field through their LabTech compatible mobile devices.

LabTech Mobile allows you to:

- Improve customer management and technician response time
- Seamlessly support your customers at any time, from any location
- Greatly increase your technicians' productivity and efficiency from the field
- Improve your ability to accurately capture billable time for increased profits
- Improve customer service by having immediate access to essential information
- More effectively monitor, allocate and reassign resources

LabTech Mobile is currently available for Windows® Mobile 6.5, Android™, iPhone® and iPad® devices. The app is free for current LabTech users.

"I quickly and easily fixed a client's PC while standing in line for a burger. I did it from my Android phone with the LabTech Mobile app. What a great tool!"

Ryan Hanscom
Ategan Technologies, LLC
